Professional Summary

Computer Science graduate (B.Tech , VTU, 2026) with hands-on experience in Java Full Stack Development through an internship at JSpiders and two production-grade projects. Proficient in Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate ORM, React.js, REST APIs, MySQL, and PostgreSQL. Experienced with Docker, Apache Kafka, Kubernetes, and JWT-based authentication. Strong foundation in OOP, MVC architecture, layered design, and database optimization. Seeking an Entry-Level Java Full Stack Developer role to contribute to scalable, enterprise-level applications.

Professional Experience

Java Full Stack Developer Intern, JSpiders 01/2026 – Present | Bengaluru

- Developed Java web applications using Spring Boot, Spring MVC, Spring Data JPA, and Hibernate ORM following layered MVC architecture.
- Built and tested RESTful APIs with CRUD operations integrated with MySQL using Spring Data JPA.
- Designed responsive UIs using HTML5, CSS3, Bootstrap, and Thymeleaf.
- Applied OOP, exception handling, collections framework, and multithreading to write scalable backend logic.
- Used Git, GitHub, and Maven for version control and dependency management.
- Debugged and optimized application code following industry best practices.

Technical Skills

Programming Languages

Java, JavaScript, SQL

Backend Technologies

Core Java, Advanced Java, JDBC, Servlets, JSP, Spring Boot, Spring MVC, Spring Data JPA, Hibernate ORM

Developer Tools

Git, GitHub, Maven, Postman, Eclipse IDE, Visual Studio Code, IntelliJ IDEA

DevOps

Docker, Kubernetes, CI/CD

Frontend Technologies

HTML5, CSS3, JavaScript, React.js, Bootstrap, Thymeleaf

Databases

MySQL, PostgreSQL

Core Competencies

Object-Oriented Programming (OOP), Data Structures, Collections Framework, Exception Handling, Multithreading, RESTful APIs, MVC Architecture, ORM, CRUD Operations, JWT Authentication, Database Design

Messaging

Apache Kafka

Technical Projects

BookMyTicket- Movie Ticket Booking System, GitHub

- Built a full-stack movie ticket booking system with user authentication, movie browsing, seat selection, and online booking.
- Developed secure RESTful APIs using Spring Boot, Spring MVC, and Spring Data JPA following layered MVC architecture.
- Integrated Razorpay for payments, JavaMailSender for OTP-based email verification, and Cloudinary for image management.
- Implemented QR code-based e-ticket generation, booking history, and ticket cancellation with optimized database queries.

FinancePro- Loan Management System, GitHub

- Built an enterprise-level Loan Management System covering customer onboarding, KYC, loan processing, EMI management, and payment tracking.
- Developed a responsive frontend using React.js (Vite) and Tailwind CSS, integrated with secure RESTful APIs built with Spring Boot and Spring MVC.
- Implemented JWT authentication, role-based authorization, Apache Kafka for event-driven messaging, and Docker for containerized deployment.
- Generated PDF and Excel reports with centralized exception handling, logging, validation, and scalable layered architecture.

Education

B.Tech in Computer Science & Engineering

VTU CPGS Kalaburagi | 2022 – 2026 | CGPA: 8.44/10

Kalburgi, Karnataka

12th

Chandrakant Patil Memorial PU College | 2020 – 2022 | 78%

Kalburgi, Karnataka

10th

Shree Swami Vivekananda High School | 2020 | 87%

Kalburgi, Karnataka

Certificates

- Java Full Stack Development, Spring Boot & Hibernate, React.js, Docker, Apache Kafka, Kubernetes, SQL & MySQL – *JSpiders, Rajajinagar*
