RAMACHANDRA

Full Stack Web Developer
rajalasangi@email.com | +91 8088237366 | LinkedIn | GitHub | Website
Kalaburagi, Karnataka, India

Summary

Aspiring Full Stack Developer with a strong foundation in building web applications using **HTML, CSS, JavaScript, React, and Vite**. Proficient in working with databases such as **MySQL and PostgreSQL (Supabase)**. Skilled in **Core Java, JDBC, Servlets, and Spring**, with a good understanding of backend development concepts. Demonstrates strong problem-solving skills, attention to detail, and a willingness to learn and adapt in fast-paced environments.

Education

B.Tech. in Computer Science,
Visvesvaraya Technological University (VTU),
CGPA: 8.22

Skills

- **Programming Languages:** HTML, CSS, JavaScript, Java
- **Frameworks**: Spring (Spring Boot, Spring MVC), Hibernate, JDBC, Servlets, Vite React.
- **Database:** SQL, PostgreSQL (Supabase).
- **Tools:** Git, GitHub, VS Code.
- **Others:** Web design, UI/UX design

Soft Skills:

- Creativity, Communication, Leadership, Problem-Solving, Adaptability, Critical Thinking, Time Management, Attention to Detail

---

Projects

E-Virtual Study Assistant *05 January 2025*

- Developed a student productivity platform using **HTML, CSS, and JavaScript**
- Implemented features such as **lab notes management and online course integration** to enhance learning efficiency
- Designed a responsive and user-friendly interface to improve **student engagement and accessibility**.

MedSync – Blockchain Hospital Management System *08 January 2026*

- Engineered a **blockchain-based hospital supply chain management system** to ensure transparency and security
- Built the frontend using **React (Vite) and Tailwind CSS** and the backend using **Flask**
- Integrated **Supabase (PostgreSQL)** for efficient and scalable data management
- Implemented blockchain functionality using **Ganache (Ethereum local blockchain)** for secure and tamper-proof transactions
- Ensured **data integrity, traceability, and transparency** across workflows
- Developed modules for **inventory tracking, workflow automation, and secure record management**

Experience

Full Stack Development Intern

Code Alpha *May 01 – May 30 2025*

- Developed multiple Single Page Applications (SPAs) including an e-commerce website, social media platform, and project management tool using React (Vite)
- Built dynamic and responsive user interfaces to enhance user experience and performance
- Improved code maintainability and scalability by following best development practices
- Optimized API performance and data handling for efficient application functionality
- Gained practical experience in frontend development, component-based architecture, and application design

Java Full Stack Developer Intern

JSpiders, Rajajinagar *Present*

- Currently undergoing training in **Java Full Stack Development**
- Gaining hands-on experience in **Core Java, JDBC, Servlets, and Spring Framework**
- Working with **HTML, CSS, JavaScript, and React.js** for frontend development
- Learning **database integration** using MySQL and PostgreSQL
- Developing real-time applications and improving **problem-solving and coding skills**
- Collaborating on mini-projects and assignments to strengthen full stack development knowledge

---

Courses

- Certified Full Stack Development Intern, Code Alpha
- Extensive personal learning: Fundamentals of JavaScript, React, java, Spring, Hibernate, JDBC, Servlets and full stack development
- Deep dives into Supabase (PostgreSQL), HTML, CSS, and SQL
- Practical API design, web architecture, and UI/UX techniques.
