

RAMACHANDRA

Kalaburagi, Karnataka, India | +91 8088237366 | rajalasangi@email.com | LinkedIn | GitHub | Portfolio

Professional Summary

Motivated and detail-oriented Computer Science graduate with hands-on experience in full stack web development through internships and academic projects. Proficient in building scalable web applications using HTML, CSS, JavaScript, React, Vite, Node.js, Express.js, Java, Spring Boot, Spring MVC, and Hibernate. Skilled in working with relational and non-relational databases including MySQL, MongoDB, and Supabase (PostgreSQL). Eager to contribute strong technical skills, a problem-solving mindset, and a commitment to continuous learning to a dynamic development team.

Technical Skills

Programming Languages: Java, JavaScript, Python, HTML, CSS, SCSS

Backend Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate ORM, JDBC, Servlets, JSP, Node.js, Express.js

Frontend Frameworks & Libraries: React, Vite, Thymeleaf, Tailwind CSS, Bootstrap

Databases: MySQL, MongoDB, Supabase (PostgreSQL)

Tools & Platforms: Git, GitHub, VS Code, Cloudinary, Eclipse IDE

Concepts: Full Stack Development, REST API Design, MVC Architecture, ORM, Web Architecture, UI/UX Design, Blockchain, Single Page Applications (SPA), Payment Gateway Integration, OTP Authentication, QR Code Integration

Experience

Java Full Stack Intern

JSpider Rajajinagar

January 2026 – Present

Bengaluru, Karnataka, India

- Training in Core Java including OOP principles, exception handling, collections framework, and multithreading; and in web technologies including HTML, CSS, Bootstrap, and SQL/MySQL for relational database design.
- Building full stack Java applications using Spring Boot, Spring MVC (MVC architecture), Spring Data JPA, and Hibernate ORM for object-relational mapping and efficient database interaction.
- **Project:** BookMyTicket – Movie Ticket Booking System

Full Stack Development Intern

Code Alpha

May 2025

Remote

- Built and deployed Single Page Applications (SPA) including an e-commerce website, a social media platform, and a project management tool using Vite, React, and Node.js.
- Enhanced codebase maintainability and improved API performance by applying industry best practices and clean code principles.
- Developed RESTful APIs using Express.js to support dynamic frontend features and data management workflows.
- Collaborated in a team environment to deliver production-ready web applications on schedule.

Projects

MedSync – Blockchain Hospital Management System | *Vite, React, Tailwind CSS, Flask, Supabase, PostgreSQL, Blockchain*

- Engineered a supply chain hospital management platform integrating blockchain technology to ensure data integrity, transparency, and security across all medical workflows.
- Built a responsive frontend using Vite React and Tailwind CSS; developed backend services with Flask; managed structured data using Supabase (PostgreSQL).
- Implemented blockchain-based audit trails to enforce immutable record-keeping and regulatory compliance.

BookMyTicket – Movie Ticket Booking System | *Java, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Thymeleaf*

- Designed and developed a full stack movie ticket booking platform enabling users to browse movies, select showtimes, choose seats, and complete secure online payments.
- Built backend using Java, Spring Boot, Spring MVC, Spring Data JPA, and Hibernate ORM; designed frontend with Thymeleaf, HTML, CSS, and Bootstrap; managed data with MySQL.

- Integrated Razorpay for secure payment processing, Cloudinary for cloud-based movie poster and theater image storage, JavaMailSender for OTP-based email verification, and a QR Code Generator for unique per-booking ticket verification.

E-Virtual Study Assistant | *HTML, CSS, JavaScript*

- Developed a student productivity platform that integrates lab notes and online course materials to improve student engagement and learning outcomes.
- Built entirely with vanilla HTML, CSS, and JavaScript, ensuring lightweight performance and broad browser compatibility.

Education

Visvesvaraya Technological University (VTU)

Kalaburagi, Karnataka, India

Bachelor of Technology in Computer Science and Engineering

2026

- CGPA: 8.4 / 10.0

Certifications & Courses

Certified Full Stack Development Intern – Code Alpha

Courses Completed: Core Java, Advanced Java, Spring Boot, Fundamentals of JavaScript, React, Node.js, Express.js, Full Stack Development, MongoDB, Supabase (PostgreSQL), HTML, CSS

Additional Learning: Practical API Design, Web Architecture, UI/UX Design Techniques

Soft Skills

Creativity, Communication, Leadership, Problem-Solving, Adaptability, Critical Thinking, Time Management, Attention to Detail
